2023 has been a tumultuous year in global trade and border policy. Once a year we gather as Canada's trade community to reflect on what happened and where are we going. From modernization of Canada's revenue management system (CARM) to changes in border and customs policies to several geopolitical events that have fundamentally changed global supply chains, IE Canada has been in the forefront of advocacy and engagement to ensure goods continue to flow across Canada's international borders.

At the 2023 IE Canada Fall Summit taking place November 28-29 at the Fairmont Château Laurier in Ottawa, we hope to facilitate a broad range of conversations through engaging panel discussions, keynote speeches and interactive sessions. We look forward to exploring key policy areas such as Forced Labour and Child Labour reporting - Bill S211, Canada's Indo-Pacific Strategy, Sanctions, Global Trade and Border policies, CBSA and U.S. CBP border policy, workshops, and a lot more. We want to continue building on our success from last year's event and make our 2023 Fall Summit even better. It is the most important event in the calendar for the Association.

We hope to see you all soon in Ottawa.

Yours sincerely,

Warrington Ellacott
Chair
